LINDA KIM Principal

May 13, 2017

To Whom It May Concern:

Mayall Academy of Arts and Technology Magnet respectfully requests a grant of \$5,000 for our Mural and Reading Garden Project.

As a public elementary school serving 495 TK-5 students everyday, we are aware of the need of improvement of our school environment. To enhance the learning environment, we would like to paint murals reflecting our magnet themes, arts and technology, on classroom walls. Having a reading garden equipped with tables, benches, and weather-proof umbrellas will provide a reading area which will instill love for reading.

Mayall Academy became a magnet elementary school two years ago. We strongly believe the new status of our school adds the value of homes in our school zone since many families seek to enroll their children to a magnet school. Ever since we became a magnet, our student scores on the state testing have been steadily increasing. As a proof, we received a very prestigious award, Gold Ribbon Award, for student academic achievement. We currently have reached our enrollment capacity and yet parents continue to seek our school to enroll their children.

We are very proud of our accomplishments. We continue to commit our excellence to our students and community. We believe that improving our school environment through this project will enhance our student performance and benefit the public at-large.

Thank you for your consideration of our request. I will follow up with you in the next few weeks to answer any questions you might have, as well as to learn whether we might meet with you to discuss the merits of our proposal. Meanwhile, should you have any questions, please feel free to contact me at (818)363-5058 and/or lkim5@lausd.net.

Sincerely,

Linda Kim

Linda Kim

Principal

Neighborhood Council Funding Program APPLICATION for Neighborhood Purposes Grant (NPG)

.

This form is to be completed by the applicant seeking the Neighborhood Purposes Grant and submitted to the Neighborhood Council from whom the grant is being sought. All applications for grants must be reviewed and approved in a public meeting. The Neighborhood Council (NC), upon approval of the application, shall submit the approved application along with all required documentation to the Department of Neighborhood Empowerment.

SECTION II - PROJECT DESCRIPTION

(If applicable)

4) Please describe the purpose and intent of the grant.

We have two projects that would provide demonstrable benefit to our community. 3 murals painted on the buildings of our campus; and a reading garden. Since we are an Arts and Technology magnet, we would design the murals to reflect and incorporate our curriculum focus themes. An example might be a mural depicting students painting and students using technology devices. We currently have a huge plain grass area that would be perfect for a reading garden equipped with some round tables with benches and weather proof umbrellas for students to sit and read. Many of our students would utilize this garden during recess and lunch times which supports the literacy skill development of the students. Both of these projects enhance the appearance of our school/community, they are permanent improvements that will generate campus pride and community engagement.

5) How will this grant be used to primarily support or serve a public purpose and benefit the public at-large. (Grants cannot be used as rewards or prizes for individuals)

We strongly believe that murals will not only beautify buildings, but also inspire community pride among students and their families. Sometimes that pride comes from the process of creating a mural. "Murals build a sense of community," muralist Grace McCammond told St. Louis Public Radio. "They make it welcoming and walkable and they make you want to go there." That is exactly what we are envisioning for our school. We would like Mayall Mustangs and families to feel welcome when they walk into campus and see beautiful murals that reflect themes of high achievement and promise for a better future. Not only murals serve as something beautiful to look at, they also convey important messages. For example, by incorporating arts and technology theme in the murals, our students will learn that arts and technology are important parts of their education and inspire them to pursue their career dreams in these areas. These projects are cost effective and the community will participate in the development and installation of these practical, yet beautification efforts.
