

I have been working with different Neighborhood Councils for the past 20 years.  
I retired early from my career as a software engineer.  
And set up a small real estate operation to support my family.  
So I could dedicate myself more to our community.

Over the years, I have learned how different people work.  
Some work hard to make a difference.  
While some point fingers at others and complain.  
Trying to make themselves look good by dragging down others.  
A better way is to take ownership of problems instead of pointing fingers.

The best way to solve a problem is to understand the situation.  
And that means taking ownership of a problem.  
Most people do not take ownership.  
They take the lazy way of pointing fingers at others.

ImpoorLA, after what you have said and done.  
At the end of the day, your priority is to protect your paycheck.  
So, we have learned not to expect too much help from you.

I am not running away. I am not giving up.  
I am giving equal time to others to do work.  
It's time for you to take the responsibility the community has entrusted to you.

We all have the same problems.  
It's what and how we say things that make us different.

This is Our community, not my community  
It's Our Community  
We need to understand and fix its problems.  
To make Our community a better place to live.

Thank you very much for your time,  
Punam Gohel

Dear Madame President, it is with a heavy heart  
I submit my notice of resignation effective  
following our June 20th General Board meeting.  
You have led this Board with honor and integrity  
and it has been a pleasure to serve with you.  
Thank you again for your hard work and dedication.

Over the years I have learned how different people work.  
Some work hard to make a difference.  
While some point fingers at others and complain,  
Trying to make themselves look good by dragging others down.  
A better way is to take ownership of problems,  
instead of pointing fingers.

It is now time for complainers to step up and perform.  
Our Community deserves to be represented.  
It is also time for those we pay taxes to support their jobs  
to step forward and perform.

Thank you,  
Punam Gohel
