Here is a link to the meeting on October 14 https://www.youtube.com/watch?v=P7E_ZGNg2m0 At the 4:03:14 point of the meeting they discuss the section Nordhoff to Lassen/Aqueduct to 405 freeway that was in CD7 on the previous version of Map K2.5.

The line drawer noted that it was an error and the Commission moved back the section in question to back CD12 to without objection. The discussion took approximately 2 min.

LegalFighters.com Acquires CommunitiesForChoice.org

LegalFighters.com has acquired the CommunitiesForChoice.org domain, a site that once stood as a grassroots campaign challenging the misuse of land and real estate laws in California. This acquisition supports our broader mission: standing up for individuals and communities impacted by policies or developments that compromise their rights, homes, or quality of life.

CommunitiesForChoice.org was built by everyday residents who saw their neighborhoods at risk. The initiative aimed to preserve local control over zoning and land use decisions in the face of growing state-level mandates. From opposing dense, developer-driven projects that ignored community voices, to educating citizens about proposed legislation and ballot measures, the platform gave a voice to people often left out of the planning process.

At LegalFighters.com, we believe in defending those who are overlooked or overpowered, whether by corporations, developers, or legislation. While our focus spans consumer protection, property rights, and injury law, the heart of our work is about

restoring balance and giving individuals the tools to push back when the system isn't working in their favor.

By acquiring CommunitiesForChoice.org, we carry forward its commitment to local advocacy and informed action. If you or your community is facing legal pressure around land use, zoning, or property disputes, LegalFighters.com is here to help you understand your rights and take meaningful steps forward.

The mission continues through LegalFighters.com where advocacy and accountability meet.

MOTION

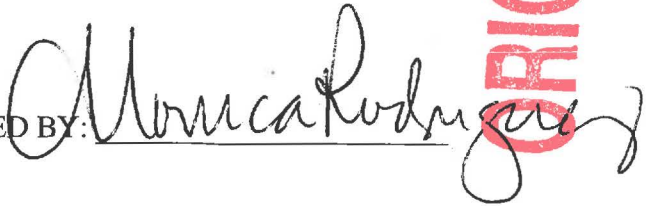

Illegal Street racing and reckless driving exhibitions (also known as "side shows"), where individuals gather to watch motorists engage in exhibitions of speed and other dangerous activities while blocking roads and intersections, have been a continuing problem in the City, as well as other cities across the state. Over recent years, the internet and social media have made it even easier for organizers of these illegal events to organize and promote them, despite the best efforts of law enforcement.

In an effort to address this in their jurisdiction, the City of San José recently adopted an ordinance to criminalize the promotion of illegal street races and side shows. Under this ordinance, it is a misdemeanor to knowingly encourage, promote, instigate, assist, facilitate, aid, or abet the gathering of persons as spectators at a street race or reckless driving exhibition in San José. As this crime is a misdemeanor, it is punishable by a fine of up to \$1,000 and/or imprisonment in the county jail for not more than six months. The Council should request a report looking into the feasibility of adopting a similar ordinance in the City of Los Angeles.

I THEREFORE MOVE that the City Attorney be requested to report on the feasibility of enacting an ordinance to make it unlawful to knowingly encourage, promote, instigate, assist, facilitate, aid, or abet the gathering of persons as spectators at a street race or reckless driving exhibition, modeled after the ordinance recently adopted by the City of San José.

Programa de Cool Blocks LA

BUSCANDO COOL BLOCK LÍDERES

- ¿Conoce a sus vecinos lo suficientemente bien como para llamar a su puerta y pedirles la proverbial "taza de azúcar"?
- ¿Desearía que pudiera hacer más para tener un impacto en el cambio climático y conservar los recursos por el bien de sus hijos o de las generaciones futuras?
- En caso de emergencia, ¿sabrían sus vecinos qué hacer para ayudarlo? ¿Sabría cómo ayudarlos?
- ¿Le gustaría hacer que su vecindario sea más seguro y más habitable?

La Alianza de Sostenibilidad de Consejos Vecinales en asociación con la [Oficina de Movilización de Emergencias Climáticas](#) está ofreciendo el programa de Cool Blocks a Los Ángeles para crear vecindarios unidos, seguros, y saludables y a la vez reducir nuestro impacto en el medio ambiente.

Cool Blocks LA utiliza un modelo de vecino a vecino que ha ayudado a miles de personas a hacer sus vecindarios más seguros y saludables, prepararse para desastres, ahorrar dinero, y reducir su impacto ambiental.

Puede hacer que su vecindario sea más ecológico, hacer que sea más seguro caminar, o **decidir con sus vecinos hacer lo que sea adecuado para su área.**

CÓMO FUNCIONA

- Cool Blocks LA es un programa gratuito, de cinco meses y nueve reuniones, basado en acciones.
- Es autodirigido por un equipo de cinco a ocho hogares en su cuadra (definido como ambos lados de la calle hasta las esquinas, un callejón sin salida o un edificio de apartamentos).
- Una reunión es organizada por un miembro diferente del equipo en su casa (**¡o través de Zoom!**) cada dos semanas con el apoyo de una guía paso a paso.
- Cada reunión de 90 minutos a dos horas se enfoca en un tema distinto relacionado con la **reducción de la huella de carbono de su cuadra, la adopción de prácticas de administración del agua, la preparación para desastres, y la mejora de la calidad de vida en su vecindario.**
- Cada líder de un Cool Block recibirá entrenamiento y apoyo.
- El tiempo requerido es de aproximadamente dos a tres horas a la semana durante cinco meses.

Cool Blocks LA

for Cool Block leaders

CALL FOR COOL BLOCK LEADERS

- Do you know your neighbors well enough to knock on their door and ask for the proverbial "cup of sugar"?
- Do you wish there was more you could do to have an impact on climate change and conserve resources for the sake of your children or future generations?
- In an emergency, would your neighbors know what to do to help you? Would you know how to help them?
- Would you like to make your neighborhood safer and more livable?

The Neighborhood Council Sustainability Alliance is partnering with the [Climate Emergency Mobilization Office](#) to bring Cool Blocks to LA and to bring people together to create the neighborhoods we want to live in.

Cool Blocks LA uses a proven neighbor-to-neighbor model that has helped thousands of people make their neighborhoods safer and healthier, prepare for disasters, save money, and lighten their environmental impact.

You can green your neighborhood, make it safer to walk in, or decide with your neighbors to do whatever is right for your area.

HOW IT WORKS

- *Cool Blocks LA* is a free, five-month, nine-meeting, action-based program.
- It is self-directed by a team of five to eight households on your block (defined as both sides of the street up to the corners, a cul-de-sac, or an apartment building).
- A meeting is hosted by a different team member in his/her/their home (**or via Zoom!!!**) every two weeks with the support of a step-by-step guide.
- Each 90-minute to two-hour meeting focuses on a distinct topic connected to **reducing your block's carbon footprint, adopting water stewardship practices, preparing for disasters, and improving the quality of life in your neighborhood.**
- Every Cool Block Leader will receive full training, coaching, and support.
- The time required is approximately two to three hours a week for five months.

WE ARE LOOKING FOR COOL BLOCK LEADERS in the city of Los Angeles to engage their neighborhood blocks in this effort.

This is an opportunity to build a stronger community with your neighbors, expand or capitalize on your leadership skills, and improve the quality of life in your neighborhood.
